GENERAL MANAGER REPORT

Date: June 27, 2017

I have been meeting with and communicating with General Managers, Supervisors and County officials throughout Humboldt County and California to pass ordinances, which prohibit accessory dwellings without input from the County, service agencies or towns that are impacted. All of those I have talked with are equally as concerned, so we will be meeting to develop ordinances to protect from excessive dwelling impacts to a community or infrastructure. Counties have approved accessory dwellings for many years but have always requested input from local service agencies and the planning departments prior to approval but this new policy, bypasses the County and local agencies that will be impacted. There is language within the policy to address what impact accessory dwellings will make on infrastructures, roadways and communities through the permitting process. I will keep you updated on when the next meeting will take place.

I have been coordinating with the Park and rodeo administrators in an effort to ensure we are able to access the water treatment facility and respond to emergencies. They have been helpful and willing to notify us of any problems during park events. The Rodeo was held on Father's Day weekend and did not create any access problems.

There was a fire on Friday June 16, on Locust st. at about 3:00am which required large amounts of water through our new hydrant and distribution system. At one point there were 7 fire hoses drafting from our system and we were able to provide sufficient water without depleting tanks or forcing us to increase the amount of water we draft from the river. The Fire Department liked the hydrants we installed because the discharge pipes could be isolated from rest of hydrant. This was a very good test of what we are able to provide in the event of a fire and I want to thank Dan for showing up early and working with Brian to make sure all water needs were met.

I participated with the Garberville Rotary Club to install a roof on a school in Guatemala and although it was a 5.5 hour bumpy ride from the airport, the Mayan students were very grateful for our effort to keep them dry while at school. Local residents and business owners donated money and resources for the project, while Dennis Bourassa, Brian Walker, Tina Tvedt Schaible and Marcus Schaible were in the group that did the work.

The State Water Resource Control Board inspector did a site visit on Monday June 10th and we were able to talk about upcoming State regulations, permit process and efficiency of our wastewater treatment facility. Our current (WDP) Waste Discharge Permit was issued in 2011 and is usually updated every 8-10 years, so we will most likely be issued a new WDP during the next 12 months.

Respectfully Submitted: Ralph Emerson

BOARD AGENDA MEMORANDUM

Meeting Date:	June 27, 2017
To:	Garberville Sanitary District Board of Directors
From:	Jennie Short, Consultant Project Manager
Subject:	March & April 2017 Financial Statements

GENERAL OVERVIEW AND FINANCIAL CONSIDERATIONS

The water Profit and Loss Budget Performance can be summarized as:

		YTD over (under)	% over (under)
Description	YTD Amount	budget	budget
Total income	425,021.58	22,741.48	5.4%
Total Administrative &			
General Expense	149,807.46	(824.54)	-0.6%
Total Water Trans &			
Distribution	59,357.92	417.92	0.7%
Total Water Treatment	102,452.95	4,432.95	4.3%
Total Expenses	311,618.33	4,026.33	1.3%
Net Ordinary Income	113,403.25	18,715.15	16.5%
Net Other (Income) Expense	295,249.37	21,599.37	7.3%
Net Income	(181,846.12)	(2,884.22)	1.6%

The financial statements for this month show that the operational budget is within acceptable tolerances for this month. The water fund is 16.5 percent over budget for net ordinary income, which is good news.

There are some unanticipated expenses for water transmission repairs and maintenance that will be posted prior to the end of the fiscal year.

The <u>sewer</u> Profit and Loss Budget Performance can be summarized as:

		YTD over (under)	% over (under)
Description	YTD Amount	budget	budget
Total income	304,755.86	(161.55)	-0.1%
Total Administrative &			
General Expense	148,481.16	(6,278.84)	-4.2%
Total Sewage Collection	64,788.69	27,998.69	43.2%
Total Sewage Treatment	52,321.54	(14,628.46)	-28.0%
Total Expenses	265,591.39	7,091.39	2.7%
Net Ordinary Income	39,164.47	(7,252.94)	-18.5%
Net Other (Income)			
Expense	128,604.32	8,974.32	7.0%
Net Income	(89,439.85)	(16,227.26)	18.1%

The shortfall for Net Ordinary Income in sewer is concerning but is less than the water overage, so the net between the two is a positive. There have been several unanticipated expenses in the sewer collection repair and maintenance line item. Meredith Lane and Thomas Lane experienced emergency failure and necessitated significant repairs that were not budgeted for. The Board had budgeted for repairs to the Linda Lane pump station access including replacing the culvert and reconstructing an all-weather accessible roadway.

As seen on the Balance Sheet, there have been significant expenditures for asset acquisition totaling \$131,751.94 through April 30, 2017. There are additional asset acquisitions that will occur prior to the end of the fiscal year. The total payment on long term debt through April 30, 2017, is \$103,541.37.

Between the Net Ordinary Income, the asset acquisition, and the loan payments, the net cash flow is (\$83,840.84). I anticipate that by the end of the fiscal year, the projected cash flow will be slightly better at (\$76,533).

STAFF RECOMMENDATION FOR BOARD ACTIONS

Approve the Financial Statements as presented.

The Board has made it clear that we should follow the ordinances and policies in place so as not to create confusion or a precedent of making up conflicting policies for different situations or customers. With that being said, we don't currently have an ordinance in place which addresses a situation like adding a food truck grease interceptor to the approved Town Square restroom project.

The Restroom group has paid for a water and sewer connection which will not be a substantial impact to our collection system. I have estimated that if the restroom is used 50 times per day, it will use 250 gpd and 10 units per month. This is within the average single family household range for water usage.

I have been monitoring the food truck which is on site and all the water they use is currently selfcontained but if they are allowed to dump their storage tank, it could be 25-50 gpd. This combined with the restroom is still not excessive impact to the collection system.

The Board approved a restroom in June 2015 but a food truck grease interceptor was not considered at that time and has been included by the Town Square group since that time. I met with both groups and their engineer on Wednesday June 14th, in an effort to coordinate and find a plan that all parties agree with. The meeting ended with an agreed conception to include a grease interceptor, which will only help ensure cleaner wastewater entering our collection system.

What is before you is whether to charge an additional fee for that grease interceptor and the impact food trucks will have on our collection system or to waive additional fees and allow a grease interceptor to be installed prior to entering our collection system.

Our current connection fees are \$8,000 water and \$8,000 for sewer.

VII. ACTION and/or DISCUSSION ITEMS

1. Garberville Public Restroom Fees-Discussion/Action

Garberville Redway Public Restroom Working Group (GRPRWG) is working together with the Garberville Town square in implementing a public restroom on the square. They are in the process of formalizing their agreement with the Town Square. GRPRWG understands that the sewer Hookup fees will be increasing in the near future. They are asking the GSD Board to consider "freezing" their cost for the sewer hookup at the current \$1200.00 in case their agreement is not reached with the Town Square until after the hookup fees are increased.

Chairperson moved to discuss the heart of the meeting. Action and discussion items. First issue on the agenda is Garberville Public Restroom Fees.

Would R. Emerson take the lead on this issue.

Emerson stated GSD was approach by the Group (GRPRWG) that is trying to put a Public rest room in the Town Square. Emerson requested that they produce a map or drawing of the location they are planning to place restroom. Emerson informed them there is water already available at the Town Square, all they needed was a sewer connection fee of \$1200. They were also informed that the sewer rate will go up in the near future and to consider making an application as soon as possible to keep the now rate of \$1200. As this group is in the process of securing funds for the project they ask GSD if we could hold that rate until they are able to come up with the secured funding after donation. A few members from the group are here to address the board of Directors about holding the now rate of \$1200 in the case the funding is not secure before rates change in the near future.

Bob Froehlich gave presentation with two other members present Suzel, and Leo Pollard, three other core members of group Dave O, Jim T, and Mike M could not make it to the presentation to the board. Bob then explained about the groups activities around Garberville and Redway communities. They are a group that have been together about 4 years and would like to put a Public restroom in Garberville... At first they were working with the Transit department to place the toilet next to the bus stop at the south entrance into Garberville. However in the end that felt thru. They put up a porta-potty in Redway and a dumpster for a length of time. The group have also had a number of town meetings and eventually this group realize that the town Square would not be able to fund a restroom but the square would be an idea spot to put a public restroom. Bob said we proceeded to meet with the town square board and drew up a MOU with them stating that the Group will go out and fund raise and be responsible for building and getting the money together for putting a

new Restroom up there. Including a new sewer hookup and developing a maintenance plan for maintaining the restroom.

The group came to a point where both the Town Square Committee and their Group was going to sign off on the MOU but in the MOU there are two other items that have to be sign off on or the MOU is null or void.

1. The Town Square wanted to have final say about the design of project.

2. The Group(GRPRWG) wanted to sign off on the overall cost of project.

They are then waiting for the design from the Town Square so as to move forward with this project. As the design is key to the funding of the project they are still waiting for all their ducks to be in a row before going out and fundraising. In the process they are hoping not to lose out on the opportunity to acquire the lowest or best possible rate from GSD or even to donate or waive the fee for the sewer connection. The letter that was written to GSD from GRPRWG is asking for a freeze on the now rate until they could get their ducks in a row or waive the fee as a community service would be ideal.

R. Emerson replied cannot grant a waiver on the connection fee as a public agency. What he recommends to the board is have them fill out an application with what the rate is now and then give them a time period they would have to meet, whether it'd be a year or two or something that would be an appropriate time line, until they could get the appropriate funding.

R. Copenhafer Question? Would it be possible to have a person donate the money for their application and if the project did not come thru, can GSD return their money?

R. Emerson; So your saying a kind Samaritans would pay the money on the application and it falls thru. I would think that is possible only if construction have not been started.

Chairperson confirmed with Emerson, they start the application now and in the application we give them two years to do construction. The \$1200 could be the rate with any hookup within the two year time frame.

R Emerson: Yes which would not be unusual for any other customer application that came in and had an empty lot and would be building in the future and apply at this time for sewer hookup. The rate would be what it is now and that would be following the Ordinance that we already have. That is my recommendation.

B. Stewart suggest that we accept their application and make the fee acceptable for now until June 30th 2016. One year.

D. Bryan What if they pay that fee? What would the time line for them to build in.

B. Stewart if they pay the fee he suggest they be given a reasonable time to complete the project. Two years.

D. Bryan confirmed that the application be fill out now with present rate and have a year June 30th 2015 -June 30th 2016 to pay the fee. With an addition 2 years beyond that to complete job.

L. Brodersen suggested that this be in consideration for all other contractors or customers applying for sewer hookups with the going rate of \$1200 with the thought of future building. Being careful to set precedence for all customers and not for one group.

Doug- GSD is looking at changing the rate pretty soon in the next couple of months.

Suzel- made comment that it is a Garberville Sanitary Service project. It is just to help with the Sanitation of Garberville. It is not a money making project and that GSD should keep that in mind when they make this decision.

Chairperson stated that the property is own by the Town square and not GSD and they will be the one signing the application.

B. Stewart made a motion to accept the application by the Town Square at the current fee, with one year to pay the \$1200. to June 30, 2016. Also they will have two years in which to build the restroom.

D. Bryan seconded the motion. Chairperson: Motion was approved

Chairperson: Mr. Dazey came in to the meeting and he was then inform that he had received the bid for the redwood lumber from the old Alderpoint Road Water Tank. He said he was a big fan of GSD and was happy with GSD decision.

2. 2015–2016 Budget Adoption

R. Emerson reported Tina, Linda as a part personnel committee and Jenny have been working on budget and on getting reimbursement for the Drinking water project claim 10 and 11. GSD have fronted some of the money for the drinking water project. We got a loan and grant and we were working on getting the some of that money back we have already received \$343,462.

And on the water budget on the last page, we also have \$311,445 that is expected to be here by the end of July that will help set our cost, expenses, and what we have in reserve for the next years budget. R Emerson stated that is the last off it, we wont have any more reimbursement and we would be operating on our receivables, service charges water and waste water. Also to be able to use this money carefully whether it'd be as a reserve account for emergencies or for matching loans or grants. Keep that as procuring interest for insurance and protection of GSD.

- 7.7 Approval of Expenditures
- a. Total expenditures for one calendar day by any employee for any single item or group of related items, may not exceed \$200.00, without advance District Administrator's General Manager approval. Managers may set lower limits for expenditures by their staff.

5.3.1 Vacation

Full-time employees are eligible for paid vacation. Vacation is calculated according to your anniversary date.

- a. Full-time employees shall be entitled to 10 working days paid vacation after completion of one year of employment, prorated upon average total hours worked from date of hire. Accrued vacation time (5 working days) may be taken after six months of employment from date of hire (current employees only) with prior District Administrator General Manager approval. Employees are encouraged to take vacation days because time away from work allows employees to relax and rejuvenate, which is necessary to handle the stress which may come with a work environment. Employees will be allowed to accrue (bank) up to 240 hours (30 days). Vacation hours accrued above 240 will be paid to the employee in an annual check at end of calendar year. Any employees hired after January 2007 will be required to wait the full year from date of hire before they are eligible to use vacation time. All vacation time must be taken within the anniversary year <u>after</u> it is earned (Example: Hired in October 2006 Anniversary year is October 2007 October 2008. Employee must use all vacation time by October 2008), unless the District Administrator approves an employee's request to carry vacation time to the next year. Carry over of vacation time will be discouraged and only approved under extreme circumstances.
- b. After 5 years of employment, a full-time employee shall be entitled to 15 days paid vacation. After 20 years of employment, a full-time employee shall be entitled to 20 days paid vacation.
- c. An employee eligible for paid vacation may request approval by the District Administrator to receive pay for up to ½ of the year's vacation time, in lieu of taking the time off.
- d. Paid time off is to be requested in writing as far in advance as possible, so that management can plan for coverage by other staff members. Paid time off will be scheduled with management approval on a seniority basis.
- e. Management shall schedule his/her vacation time as well as all other employees so that all operations of the District are covered.
- f. Full-time employees are eligible to use accrued vacation after six months of employment.
